This action is in response to applicants' amendment of 25 August 2008. The amendments to the specification have overcome the objections to the disclosure and the specification. The amendments to the specification and the new drawings have overcome the objection to the drawings. Claim 7 should not have been rejected over WO 2004/039915 since that reference is silent as to the impurity content of the precursors or the final product. The amendments to the claims have overcome the objection to claim 11, the 35 USC 112 rejections over claims 1-4, 6, 7 and 16, the obviousness-type double patenting rejections and the art rejections. Applicant's arguments with respect to the remaining rejections have been fully considered but they are not persuasive. It is noted that claim 24 is directed to limitations set forth in original claim 3.

Claim 24 is rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Page 2, lines 13-18 and page 7, lines 9-10 teach the maximum amount of Ba in M is 10 mol%. Claim 24 teaches the maximum amount of Ba is 30 mol%. This discrepancy needs to be corrected.

The amendments to the claims did not overcome this rejection.

Claims 1-23, 25 and 26 are allowable over the cited art of record since the claimed precursor impurity levels are not taught or suggested by the cited art of record.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
